ESTABLISHED 1833. THURSDAY EVENING, AUGUST 27, 1885. PRICE THREE CENTS

**Listen to Your Wife.**

The Manchester Guardian, June, 8, 1883, says: At one of the "Windows"

Looking on the woodland ways! With clumps of Rhododendroms and great masses of May blossoms ! ! ! "There was an interesting group.

It included one who had been a "cotton spinner" but was now so

Paralyzed ! ! !

That he could only bear to lie in a reclining position.

This refers to my case.

I was first Attacked twelve years ago with "Locomoter Ataxy"

(A paralytic disease of nerve fibre rarely ever cured)

and was for several years barely able to get about.

And for the last five years not able to attend to my business, although

Many things have been done for me.

The last experiment being nerve stretching.

Two years ago I was voted into the Home for incurables! Near Manchester, in May, 1882.

I am no "Advocate"; "For anything in the shape of patent" Medicines?

And made many objections to my dear wife's constant urging to try Hop Bitters, but finally to pacify her —

Consented ! !

I had not quite finished the first bottle when I felt a change come over me. This was Saturday, November 3. On Sunday morning I felt so strong I said to my room companions, "I was sure I could 'Walk!

So started across the floor and back.

I hardly knew how to contain myself. I was all over the house. I am gaining strength each day, and can walk quite safe without any "Stick!"

Or Support.

I am now at my home living again. I have been a member of the Manchester "Royal Exchange"

For nearly 30 years, and was most heartily congratulated on going into the room Thursday. Very gratefully yours, John Blackburn, Manchester, Eng., Dec., 24, 1883.

Two years later am perfectly well.

*Prosecute the Swindlers!!!*

If when you call for Hop Bitters (see green cluster of Hops on the white label) the druggist hands out any stuff called C. D. Warner's German Hop Bitters or with other "Hop" name refuse it and shun that druggest as you would a viper; and if he has taken your money for the stuff, indict him for the fraud and sue him for damages for the swindle, and we will reward you liberally for the conviction.

# CALM ABOUT IT.

## John L. Sullivan Says He Will Whip McCaffrey Just as He Pleases.

## He'll Not Paralyze the Fellow, but Merely Reduce His Swelled Head.

## The Wabash Committee Expect to Hear From Talmage To-morrow Evening.

### SLUGGER SULLIVAN

### Says he Can Whip McCaffrey as He Pleases.

By Telegraph to THE SENTINEL.

BOSTON, Aug. 27.—John L. Sullivan, the pugulist, appeared about town yesterday, preparatory to leaving for Cincinnati this evening. He will meet Dominick McCaffery there Saturday evening. His sunburnt complexion and reduced abdominal proportions indicated that he had managed to get rid of considerable superfluous flesh, but his weight is still several pounds over his usual fighting avoirdupois and his fists are not as hard as on other occasions. The champion said he felt satisfied with his condition and expressed his confidence that he could whip McCaffery just as he pleased, in one, two or three rounds.

LETS HIM OFF EASY.

PITTSBURG, Aug. 27.—John L. Sullivan, the pugilist, passed through here this morning on his way to Cincinnati. He reported himself in excellent condition and said: "I won't paralyze McCaffery, but I merely intend to reduce his swelled head."

### THE SPANISH TROUBLE.

### The Press and Army Disgusted with the Cabinet.

By Cable to THE SENTINEL.

MADRID, Aug. 27.—The government has closed the doors of the Army and Navy club, because the officers belonging to the club have returned their German decorations and because the club has struck from its list of honorary members the names of German officers and that of the crown prince of Germany. The press and army are disgusted by the amicable attitude that has been suddenly displayed by the cabinet towards Germany. The ministerial papers have adopted a modified tone, while opposition journals attack Germany with increased vigor. The result is that seven of the latter papers have been seized and the publishers will be prosecuted. Public feeling is more decided than ever against concession to Germany.

### Disabled Vessels at Sea.

By Telegraph to THE SENTINEL.

JACKSONVILLE, Fla., Aug., 27.—Capt. Vogel, of the steamer City of Palatka, from Charleston, which arrived here this morning, reports passing twenty or thirty large vessels totally dismantled, the result of recent gales. None of them, however, asked for aid and he did not go near enough them to ascertain their names.

### A Monstrous Sea Wave.

By Cable to THE SENTINEL.

LIMA (via Galveston) Aug. 27—A noteworthy phenomenon is reported from Callao. Last Sunday a loud report was heard proceeding from the sea and a large column of water was seen to rise. A similar occurrence was observed during the preceding week. From the situation of the spot this can only be ascribed to natural causes.

### The Run Continues.

By Telegraph to THE SENTINEL.

PHILADELPHIA, Aug. 27.—There is no abatement in the run on the Spring Garden bank. By noon nearly $100,000 had been paid out. The officers say every demand will be met.

### THE KNIGHTS OF LABOR

### Expect to Hear from Talmage To-morrow Evening.

By Telegraph to THE SENTINEL.

NEW YORK, Aug. 27.—Secretary Turner, of the executive board of the Knights of Labor, said the members of the board would retain their headquarters at the Visitor house until to-morrow evening. They expect by that time to receive an answer from A. A. Talmage, general manager of the Wabash railway, as to whether or not the company will reinstate the Knights of Labor discharged on June 15, last. If the company will agree to do this all the trouble will be virtually at an end. Mr. Turner further said the executive board had not made any demand for the discharge of those men who had been employed in the places of Knights of Labor men.

NEW YORK, Aug. 27.—Jay Gould, A. A. Talmage, General Manager of the Wabash railway; General Manager Hoxie, of the Southwestern System, and Captain Hays, First Vice President of the Missouri Pacific, received a delegation from the committee of the Knights of Labor, which is here to effect a settlement of difficulties between the Wabash and the Knights of Labor. Mr. Gould informed the committee that the officials of the Wabash railroad were not opposed to the Knights of Labor as an organization; they rather approved it. The company had never offered such a proposition to the men as had been stated; in effect that they must break from the Knights as a condition of employment. The officials, Mr. Talmage speaking for them, explained that when the new management began under the receiver, many changes were necessitated. Leased lines were gotten rid of, and expenses curtailed. The committee suggested, as a means of settling the difficulty, that the men employed since June 16, in the place of union men, be discharged, and the old hands reinstated; that is those who had refused to cut from the organization of Knights, as a condition of being taken back, June 18, when the shops were reopened. The shops mentioned were those at Fort Wayne, Ind., Decatur and Springfield, Ill., Moberly, St. Louis and Sedalia, Mo. The Executive Board of Knights urged that the shops were closed June 16, opened two days later, and then when the old hands applied for work they were refused unless they signed an agreement to quit the Knights. One thousand six hundred men refused and were locked out, others replacing them. The conference yesterday hinged here: If the officials would agree to discharge those who took the places of those locked out, all would be well. The committee demanded an answer within fifteen minutes, but the railway officials declined such rapidity of decision, and stated that consideration would be given the matter and an answer given later on The committee of Knights then departed. Ex-Mayor T. V. Powderly, of Scranton, Pennsylvania, General Master Workmen of the Knights of Labor, said that Mr. Talmage assured the committee that he had not caused the discharge of employes because they refused to sever their connection with the Knights of Labor, and that he did not give instructions to his assistants to discharge the men who refused to sign the agreement of June 18. Mr. Powderly added: "If necessary, we can present proofs that such orders came from headquarters." The gentleman continued that Mr. Talmage had asked for time to consider the question, and said that he would not feel justified, while the war was in its present condition, without consulting the officials, in answering why the men were discharged. "We will hold another conference," said Mr. Powderly, "when a reply is expected from the Wabash officials to our demand to reinstate the 1,600 men who were discharged."

### Justice to Pensioners.

WASHINGTON, Aug. 27.—The pension laws provide that a soldier who lost his leg at the hip joint, or an arm at the shoulder joint, in the service of the country, shall be entitled to pensions at the rate of $37.50 per month. It has been the custom of the Pension Department to construe this law strictly. There are less than a dozen cases on the pension rolls in which the amputation has taken place exactly through the joints mentioned. Commissioner Black, in ruling upon two test cases brought before him, declines to hold to the strict letter of the law, and allows the full amount of pension, though the amputation did not take place at the joints. He holds that if the amputation is so near the hip, or shoulder, as to render the stump unserviceable, the pensioner is entitled to the same compensation as if no stump were left. This rule will apply to a considerable number of pensioners who have been receiving pay at a lower rate.

### A Card From John McCann.

To whom it may concern:

Whereas, my name has been mentioned in our papers and on the streets of our city, in connection with a detective agency. I desire to inform the public that I know of no such agency and do not believe any such agency exists, only in the fertile imagination of some cowardly enemy who has sought this method of doing me injury. I will further state that I am honestly and faithfully attending to my humble office and seek no notoriety in connection with such agency. JOHN MCCANN, Constable.

He did not say what his plans were. The case was put in detectives' hands.

### The Cyclone's Work.

AUGUSTA, Ga., Aug. 27.—Tuesday's storm in Charleston was a cyclone, in the proper sense of the term. The wind blew twenty-five miles an hour, increasing to thirty-five, forty and fifty, finally running up to seventy-five or eighty miles an hour. The northern edge of the cyclone touched Charleston, and completed its passage in forty minutes. But a single shed is standing on the wharf; everything is in ruins at the wharves. Hundreds of thousands of dollars were expended on wharves this season in putting them in order. The south battery was a scene of great confusion and damage to shipping. The streets were flooded with water, and crafts of all descriptions were washed ashore and floating in the streets at high tide. Fishermen's boats were destroyed, and wharves piled high with incongruous wrecks. The spire of the Citadel Square Baptist Church, one of the tallest in the city, was blown across the four-story dwelling of Thomas C. Dolterer, cutting away the piazza and front wall, and leaving the interior exposed to the storm. It will take $80,000 to replace the steeple. About a mile of railroad track was blown up, and freight depots badly damaged. Two sloops were blown out of the water, and across tracks, weighing thirty, and fifty tons each. The South Carolina railway wharves, and immense storehouses, were unroofed and heavily damaged. One building was thrown on its side and floated 100 yards into a marsh. The *News and Courier*, of Charleston, makes a rough estimate of losses: Wharf property, $350,000; private property, $300,000; cotton presses, $8,000; churches, $30,000; city property, $35,000; railroads, $50,000; Ashley river bridge, $8,000; shipping, $150,000; lumber mills, $20,000; miscellaneous, $100,000; total, $1,123,000. The track of the South Carolina railroad, from the intersection of the Northeastern railroad to the South Carolina railroad wharves, floated all about, and was deposited in zigzag proportions on whatever foundations were exposed by the receding waters. The loss to the railroad is estimated at $20,000 at this point; other railroads several thousands each. At Sullivan's Island, many houses were damaged. The New Brighton Hotel had the windows blown in and crockery broken, but withstood the storm bravely. The Casino was lifted entirely from its foundation and dashed to the ground.

CHARLESTON, Aug. 27.—It is thought the damage to the rice crop by Tuesday's cyclone is not serious. The railroads are running again, although their loss is considerable.

### KEILY RETURNS.

### He Does Not Understand Why He Was Rejected.

By Telegraph to THE SENTINEL.

NEW YORK, Aug. 27.—Anthony M. Keily, who was appointed minister to Italy, but afterwards transferred to Vienna and rejected by the Austrian government, arrived here yesterday. In an interview he said: "Any government, according to national law, from fact of its sovereignty, has a perfect right to receive or reject whoever may be appointed minister to it. International courtesy, even, does not require an explanation, but when any government assigns reasons for rejecting, it must be judged by the strength of those reasons. It is almost impossible for any American to understand how a man can be rejected as minister to any civilized government, because his wife is a Jewess as my wife is. That is the only objection made that I know of. Such a reason affronts the United States and insults the nineteenth century. What I shall do now I do not not know. I was city attorney of Richmond before I was appointed. I resigned, and sold my library and my house. Now I am broken up, root and branch."

### Another New Railroad for Indiana.

**Father, Mother, and Three Sisters Dead.**

Mr. David Claypool, formerly Sergeant-at-Arms of the New Jersey Senate, and now Notary Public at Cedarville, Cumberland Co., N. J., makes the following startling statement: "My father, mother, and three sisters all died with consumption, and my lungs were so weak I raised blood. Nobody thought I could live. My work (ship-smithing) was very straining on me with my weak constitution, and I was rapidly going to the grave. While in this condition I commenced using Mishler's Herb Bitters, and it saved my life. Because it was so difficult to get it in this little place, and I had improved so much, I stopped taking it for a time, and the result is that I have commenced going rapidly down hill again. Somehow, Mishler's Herb Bitters gives appetite and strengthens and builds me up as nothing else does, and I must have a dozen bottles at once. Use this communication as you please, and if any one wants to be convinced of its truth, let them write me and I will make affidavit to it, for I owe my life to Mishler's Herb Bitters."

The secret of the almost invariable relief and cure of consumption, dysentery, diarrhœa, dyspepsia, indigestion, kidney and liver complaints, when Mishler's Herb Bitters is used, is that it contains simple, harmless, and yet powerful ingredients, that act on the blood, kidneys, and liver, and through them strengthens and invigorates the whole system. Purely vegetable in its composition; prepared by a regular physician; a standard medicinal preparation; endorsed by physicians and druggists. These are four strong points in favor of Mishler's Herb Bitters. Mishler's Herb Bitters is sold by all druggists. Price $1.00 per large bottle. 6 bottles for $5.00.

Ask your druggist for MISHLER'S HERB BITTERS. If he does not keep it, do not take anything else, but send a postal card to MISHLER HERB BITTERS CO., 595 Commerce Street, Philadelphia.

WEDNESDAY, AUG. 26, 1885.

IT is right and proper for those who stood responsible for the debts and liabilities of the late reunion to receive the entire profits, if they so desire. If they had lost money by their enterprise, very few persons would have stepped up to the captain's office and helped to pay the bills.

A PROMINENT criminal lawyer of California has made the following announcement in a San Francisco newspaper: "Hereafter I will defend none of the criminal class. I prefer to aid in sending that class to State prison, where they more properly belong, rather than keeping them free to prey upon the community, as I have heretofore done, to my sorrow."

PROF. SWING, in the *Current*: "A woman in a Lake Geneva car last week gave her infant a severe slapping to make it quit crying. She perhaps did this to show the passengers what a profound respect she had for law, order, discipline, and submission. The infant was about three months of age. In a few years it will say, 'There is no place like home,' and will hasten to leave it for that reason."

SCIENTISTS and theologians are studying the case of a young lady in Central New York who took the gold medal at her graduation for reading the best essay, a production which was afterward found to have been stolen bodily from a magazine. She returned the medal as soon as her dishonesty was exposed, and expressed great penitence for her act. The point which the wise men are now debating is whether she would have repented if she had not been found out, and, if so, when? The discussion promises to lap over into the fall season to some extent.

AMONG the ladies at Long Branch this summer, one of the wealthiest, most "diamoned," and most gorgeously appareled is the wife of a New York barber, who has made his fortune in stock speculation. Her husband still scrapes chins, notwithstanding the fact that his wife has "society" aspirations. Most of his customers are brokers and railroad men. He picks up valuable "points" from them, and for that reason insists on remaining in business. Another woman who wears splendid toilets and jewels is the wife of a Brooklyn baker. Her husband, starting in life as a journeyman kneader of dough, hit upon a kind of bread that pleased New York's palate, and now he is a millionaire, lives in great style, and maintains one of the handsomest turnouts on the coast.

ON the ground that the work was "unwomanly" and degrading, the Pennsylvania Legislature lately passed a law prohibiting women from working in the coke ovens and mines. Instead of receiving the thanks of the ladies interested in the advancement of their sex, as they perhaps expected, the legislators are being hauled over the coals for meddling with the rights and privileges of women. Investigation into the matter shows that of the few women hitherto engaged in these laborious occupations, nearly all were widows who must do something for the support of their families, or were the wives of men who were too ill or feeble to do the work themselves. The champions of the class thus discriminated against do not recommend mining and coke shoveling as suitable or desirable employments for women, but contend that they should have the right to earn an honest living in this way when no other alternative is presented to them but idleness or beggary. If they are to be debarred from earning their bread by the only means open to them simply because the work in question is regarded as out of their proper field, then, insist their champions, the men who are trespassing on feminine prerogatives by selling tapes and corsets, and by cooking and dressmaking, should be prohibited from so doing. As it is, no man is prevented from earning his living at anything for which he is capable and can secure, and no good reason presents itself to the believers in equal rights why women should be denied the same privilege.

THE story of how Patti's divorce was formally secured, at last, is thus told in a London newspaper: Mme. Patti came before the Mayor of the Eighth Arrondissement, Paris, M. Koechlin-Schwartz, who declared her marriage *dissous par le divorce*. Mme. Patti's witnesses were Pierre Vernon and Francis Maynard; the witnesses of the Marquis de Caux were Gen. Count d'Andlau, Senateur, and Count Duriez de Verninac. After the ceremony, which took barely twenty minutes, a collection for the poor was made, and it so happened that the divorced Marquis had mislaid or forgotten his purse, when, with great grace, Mme. Adelina stepped in and offered her "last piece de vingt francs." Subsequently a dinner at Brebant's was served for the witnesses, the lawyer, the lady-heroine of the *fete*, M. Nicolini and his children—one a son of twenty-four, who is military and already *marechal des logis*. By the law of France prescribing the delay of ten months for any divorced lady who wishes to remarry, Mme. Patti will at any rate have to wait until May 16, 1886.

That the sale of Hood's Sarsaparilla continues at such a rapidly increasing rate? It is—

1st. Because of the positive curative value of Hood's Sarsaparilla itself.

2d. Because of the conclusive evidence of remarkable cures effected by it, unsurpassed and seldom equalled by any other medicine. Send to C. I. Hood & Co., Lowell, Mass., for book containing many statements of cures.

The Mississippi river is called the Father of Waters because it is the grandest and mightiest of all American waterways. The greatest of all American remedies—of all the world in fact—is Mishler's Herb Bitters. It can safely challenge comparison with any known preparation, and can show more real, bona fide cures of kidney disease, liver complaint, troubles of the stomach and bowels, dyspepsia and kindred complaints than any other remedy now before the public.

TAKE SIMMONS LIVER REGULATOR

For all Diseases of the

**Liver, Kidneys, Stomach and Spleen.**

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, therefore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

No loss of time, no interruption or stoppage of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, will expel the poison and protect them from attack.

**A PHYSICIAN'S OPINION.**

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system. Indigestion Cured!

I suffered for more than five years with indigestion, scarcely able to retain the simplest food on my stomach. The burning sensation was almost intolerable, and my whole system was deranged. I was wakeful and could not sleep, and consequently more or less nervous all the time. I declined in flesh, and suffered all the usual depression attendant upon this terrible disease. In a word, I was miserable. At last, failing to find relief in anything else, I commenced to use Swift's Specific. I began to improve at once. The medicine toned up the stomach, strengthened the digestive organs, and soon all that burning ceased, and I could retain food without the slightest difficulty. Now my health is good, and can eat anything in the shape of food, and digest it without the slightest difficulty. I most cheerfully bear this testimony, because there are hundreds suffering as I was, and I am sure they can be as readily healed. Take the prescribed dose after eating, instead of before.

**Free From Malaria.**

In the fall of 1884 I was taken with a case of malarial fever which prostrated me both body and mind. I was drugged after the old fashion with mercury and other mineral mixtures, but with no good results. My health was shattered and my energy gone. My legs and feet would swell, and I had what everybody thought was dropsy. These symptoms alarmed me, and I was ready to grasp at any remedy suggested. A friend advised me to try Swift's Specific. I procured three bottles and commenced its use. The swelling soon subsided. I have taken the three bottles, which have made a perfect cure, and I feel like a new man to-day. There never was a more meritorious medicine offered to suffering humanity. It has wrought wonders for me. WILLIS JONES.

*Street Beggary.*

To be a successful street beggar a man must look forlorn and debilitated, and unable to work. It would not do for a street beggar to take Brown's Iron Bitters, for that would tone him up and give him a wholesome ambition to labor, and he would have to go out of the beggary business and do something better. Mr. Josiah Morse, Henniken, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

# Fort Wayne Paint and Color Works,

No. 12 West Columbia Street Fort Wayne, Indiana.

## To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinder of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 33⅓ per cent. O.L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1856, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

The W. C. T. U. talk of colebrating temperance "Centennial Day."

Mrs. N. E. T. Gause ex-vice president of the W. C. T. U., moves to Indianapolis.

A vote of thanks was given to all who assisted the temperance people during the reunion.

A temperance concert given by the Band of Hope is to be given on the 22d of September.

A vote of thanks was given to Mrs. Gause for her work done for the union in the years past.

The W. C. T. U., of Fort Wayne, are very thankful to the Richmond W. C. T. U. for their liberal donation of literature to be distributed on the encampment grounds.

A Gospel temperance meeting was held on the encampment grounds last Sunday afternoon. A large audience listened to the singing and speaking. Miss Stella Lawrence rendered a solo in her usual pleasing manner.

Tuesday afternoon the committe of the Blue Ribbon club and W. C. T. U. held a meeting at temperance headquarters to report the work done at the reunion. Everything was satisfactory, the receipts being more than were at first anticipated.

### He Plugged the Bull's Eye.

Says the Columbia City *Post:* "Hon. P. S. O'Rourke, of Fort Wayne, has been the means of distributing a great many copies of *The Million*, an intelligent journal published in DesMoines, in the Twelfth congressional district. Some months ago the same distinguished gentleman distributed, with great liberality, his pamphlet entitled 'Plain Talk,' over the same territory with a double aim. His primary aim was to win public public favor and a congressional nomination by an exhibition of his natural and acquired abilities as an expounder of the true tariff doctrine our nation should adopt. His secondary aim was to provide the people with a wholesome supply of common sense brain food on a very important and vital question, of interest to every consumer in the land. If the gentleman's primary aim lands wide of the mark, and it probably may, we can assure him however, that his secondary aim has already plugged the bull's eye, and there is consolation in that."

*Out of Sorts.*

Many persons complain of not feeling well, and, though not absolutely sick or in pain, are perpetually in a state of discomfort caused by the digestive organs not properly performing their work. To correct the disordered condition of the stomach and restore health, take a half-tablespoonful of Simmons Liver Regulator after each meal. Try this purely vegetable cathartic, tonic and alterative and it will convince you that no one can take it and remain long unwell.

### Fort Wayne's Loss is Toledo's Gain.

A gentleman of this city, who lately spent several days at Toledo had the pleasure to meet Mr. Eugene Fountaine, the patentee of the Fountain engine, and who is also the inventor of a pin machine. It will be remembered that Mr. Fountaine desired several capitalists to form a stock company and locate a pin manufactory in this city, but the plans were too slow to materalize. Toledo parties hearing of his scheme made him large offers to locate the works there, which he accepted, and the factory has been in active operation for some time past, and is one of the leading industries of that city. Another invention just brought out by Mr. Fountaine, is the continuous rail for railroad crossings, which will also be manufactured in Toledo. Fort Wayne should have had both these enterprises.

## GROSS IS GOBBLED.

### The Slick Young Ribbon Salesman Arrested at Van Wert and Sure to Go Up.

Sheriff DeGroff Nelson received a letter from Van Wert yesterday. It conveyed news of much interest here as it pointedly said: "We have S. Elwood Gross, the absconding dry goods clerk and forger from Fort Wayne. We have a sure thing on him and can send him up for a good term. Shall we do it or turn him over to you?"

Mr. Nelson has no desire to saddle the cost of convicting young Gross on the people of this county and replied: "Send him to the penitentiary from your town. If you can not, wire me and I will get requisition papers. We, too, have a sure thing on him."

Young Gross came to a rather severe end, and as he committed numerous forgeries in Ohio, and did much crooked work by falsely representing himself as an agent of the Manatuck silk house, of Chicago, it is safe to predict for him a ten year term in the Ohio penitentiary.

Here the young man was petted in society and the most devout participant in prayer meetings. He engaged himself to a half dozen young ladies and successfully avoided collisions in his promiscuous love affairs. His address will be at the Van Wert county jail for some time and flowers and other tender tokens of regard will reach him under the direction named. Sheriff Nelson is entitled to much credit for the scoundrel's capture, as it was one of his postal cards that led to the clever job.

## IT PARALYZED HIM.

### Milton Sawyer, the Colored Barber, Almost Killed by Whisky.

A rumor circulated this morning that Milton Sawyer, the colored artist who keeps a barber shop on Calhoun street, had dosed himself with poison. THE SENTINEL representative dropped in and introduced himself as a physician. Milton could not speak, neither could he move his left arm. In reply to the question, "What ails you," the coon pointed to his stomach, then to his mouth and finally towards heaven. He is evidently figuring on a trip, but whether his hopes will be realized remains in doubt. It is pretty certain he took no poison, but instead attempted to cover all the whiskey in the city, with paralytic results. Dr. Gard gave the man a drug and in a week or so he will use the razor again. Many colored people sat around the sufferer's bed and the aspect was gloomy. He is the sickest man in the city.

It must be admitted that the Wabash strike has not panned out so far to any remarkable extent. Whether this is because the strikers that are to be are waiting till they are good and ready, or whether it is because the railway officials are managing to get along without coming in contact with any of the rules which the Knights of Labor have laid down for the government of members, is not exactly apparent at this distance. So far, however, but few men have quit work, and of these few a portion at least have returned to the shops.

"That tired feeling" from which you suffer so much, particularly in the morning, is entirely thrown off by Hood's Sarsaparilla.

## THEY KICK.

### The Mail Service a Little Lame on the Railroads North.

Citizens along the line of the Grand Rapids road are complaining of the careless mail transfer system at the south depot here. "And besides," says the Albion *Democrat*, "but one mail a day can arrive at this place, unless direct between Chicago or New York. The postal clerks in Chicago, and some of the other large cities, have set up a kicking on account of the large amount of mail sent to those places to be redistributed for other points. Mails formerly, in order to reach Brimfield or other points on the Lake Shore road, were sent to Chicago and returned over the other road, but now they have to go to Avilla, then on the Grand Rapids and Indiana to Kendallville, and from there over the Lake Shore, and as the Grand Rapids and Indiana has never known to make close connections with any other road, considerable delay is occasioned."

## SEEKING FASHIONS.

### Joe Clark, the Leading Merchant Tailor, en Route to New York.

Joseph M. Clark, the merchant tailor, whose parlors, on East Berry street, are familiar to the people of Fort Wayne, stepped on the limited express last night and whirled away toward the east. Mr. Clark's mission is to select and buy a stock of cloth for fall and winter suitings. Another mission is to procure the styles and view himself the fashions as they meet the eye. Mr. Clark will remain in New York for a week, devoting his time entirely to business. He tells THE SENTINEL he will return with the finest and rarest stock of clothes, for every sort of suitings, ever spread before the people of Fort Wayne. Joe is a very tasty fellow, a good judge and a master of the art of tailoring. Gentlemen are asked to defer purchases until Mr. Clark returns, and THE SENTINEL will keep them duly posted on the movements of Fort Wayne's merchant tailor prince.

### The Circus as It Was.

VanAmburg, Reiche & Co.'s circus gave creditable exhibitions yesterday and last night, not, however, to paying houses. Some features of the show were fine, particularly the tumbling and work of the Japanese. A young miss of sixteen years did a clever bareback ride, while her father and mother did the trapeze act. The trained dogs and horses were amusing. The best tumblers in the party are suffering from broken limbs. One of their number recently broke his neck in an act. It was with this show the lady with the iron jaw fell while holding a cannon by her teeth.

### John L. Sullivan Says He Will Whip McCaffrey Just as He Pleases.

### He'll Not Paralyze the Fellow, but Merely Reduce His Swelled Head.

### The Wabash Committee Expect to Hear From Talmage To-morrow Evening.

SLUGGER SULLIVAN

Says he Can Whip McCaffrey as He Pleases.

By Telegraph to THE SENTINEL.

BOSTON, Aug. 27.—John L. Sullivan, the pugilist, appeared about town yesterday, preparatory to leaving for Cincinnati this evening. He will meet Dominick McCaffery there Saturday evening. His sunburnt complexion and reduced abdominal proportions indicated that he had managed to get rid of considerable superfluous flesh, but his weight is still several pounds over his usual fighting avoirdupois and his fists are not as hard as on other occasions. The champion said he felt satisfied with his condition and expressed his confidence that he could whip McCaffery just as he pleased, in one, two or three rounds.

LETS HIM OFF EASY.

PITTSBURG, Aug. 27.—John L. Sullivan, the pugilist, passed through here this morning on his way to Cincinnati. He reported himself in excellent condition and said: "I won't paralyze McCaffery, but I merely intend to reduce his swelled head."

### THE SPANISH TROUBLE.

The Press and Army Disgusted with the Cabinet.

By Cable to THE SENTINEL.

MADRID, Aug. 27.—The government has closed the doors of the Army and Navy club, because the officers belonging to the club have returned their German decorations and because the club has struck from its list of honorary members the names of German officers and that of the crown prince of Germany. The press and army are disgusted by the amicable attitude that has been suddenly displayed by the cabinet towards Germany. The ministerial papers have adopted a modified tone, while opposition journals attack Germany with increased vigor. The result is that seven of the latter papers have been seized and the publishers will be prosecuted. Public feeling is more decided than ever against concession to Germany.

Disabled Vessels at Sea.

By Telegraph to THE SENTINEL.

JACKSONVILLE, Fla., Aug., 27.—Capt. Vogel, of the steamer City of Palatka, from Charleston, which arrived here this morning, reports passing twenty or thirty large vessels totally dismantled, the result of recent gales. None of them, however, asked for aid and he did not go near enough them to ascertain their names.

A Monstrous Sea Wave.

By Cable to THE SENTINEL.

LIMA (via Galveston) Aug. 27 A noteworthy phenomenon is reported from Callao. Last Sunday a loud report was heard proceeding from the sea and a large column of water was seen to rise. A similar occurrence was observed during the preceding week. From the situation of the spot this can only be ascribed to natural causes.

The Run Continues.

By Telegraph to THE SENTINEL.

PHILADELPHIA, Aug. 27.—There is no abatement in the run on the Spring Garden bank. By noon nearly $100,000 had been paid out. The officers say every demand will be met.

### THE KNIGHTS OF LABOR

Expect to Hear from Talmage To-morrow Evening.

By Telegraph to THE SENTINEL.

NEW YORK, Aug. 27.—Secretary Turner, of the executive board of the Knights of Labor, said the members of the board would retain their headquarters at the Visitor house until to-morrow evening. They expect by that time to receive an answer from A. A. Talmage, general manager of the Wabash railway, as to whether or not the company will reinstate the Knights of Labor discharged on June 15, last. If the company will agree to do this all the trouble will be virtually at an end. Mr. Turner further said the executive board had not made any demand for the discharge of those men who had been employed in the places of Knights of Labor men.

NEW YORK, Aug. 27.—Jay Gould, A. A. Talmage, General Manager of the Wabash railway; General Manager Hoxie, of the Southwestern System, and Captain Hays, First Vice President of the Missouri Pacific, received a delegation from the committee of the Knights of Labor, which is here to effect a settlement of difficulties between the Wabash and the Knights of Labor. Mr. Gould informed the committee that the officials of the Wabash railroad were not opposed to the Knights of Labor as an organization; they rather approved it. The company had never offered such a proposition to the men as had been stated; in effect that they must break from the Knights as a condition of employment. The officials, Mr. Talmage speaking for them, explained that when the new management began under the receiver, many changes were necessitated. Leased lines were gotten rid of, and expenses curtailed. The committee suggested, as a means of settling the difficulty, that the men employed since June 16, in the place of union men, be discharged, and the old hands reinstated; that is those who had refused to cut from the organization of Knights, as a condition of being taken back, June 18, when the shops were reopened. The shops mentioned were those at Fort Wayne, Ind., Decatur and Springfield, Ill., Moberly, St. Louis and Sedalia, Mo. The Executive Board of Knights urged that the shops were closed June 16, opened two days later, and then when the old hands applied for work they were refused unless they signed an agreement to quit the Knights. One thousand six hundred men refused and were locked out, others replacing them. The conference yesterday hinged here: If the officials would agree to discharge those who took the places of those locked out, all would be well. The committee demanded an answer within fifteen minutes, but the railway officials declined such rapidity of decision, and stated that consideration would be given the matter and an answer given later on. The committee of Knights then departed. Ex-Mayor T. V. Powderly, of Scranton, Pennsylvania. General Master Workmen of the Knights of Labor, said that Mr. Talmage assured the committee that he had not caused the discharge of employes because they refused to sever their connection with the Knights of Labor, and that he did not give instructions to his assistants to discharge the men who refused to sign the agreement of June 18. Mr. Powderly added: "It necessary, we can present proofs that such orders came from headquarters." The gentleman continued that Mr. Talmage had asked for time to consider the question, and said that he would not feel justified, while the war was in its present condition, without consulting the officials, in answering why the men were discharged. "We will hold another conference," said Mr. Powderly, "when a reply is expected from the Wabash officials to our demand to reinstate the 1,000 men who were discharged."

Justice to Pensioners.

WASHINGTON, Aug. 27.—The pension laws provide that a soldier who lost his leg at the hip joint, or an arm at the shoulder joint, in the service of the country, shall be entitled to pensions at the rate of $37.50 per month. It has been the custom of the Pension Department to construe this law strictly. There are less than a dozen cases on the pension rolls in which the amputation has taken place exactly through the joints mentioned. Commissioner Black, in ruling upon two test cases brought before him, declines to hold to the strict letter of the law, and allows the full amount of pension, though the amputation did not take place at the joints. He holds that if the amputation is so near the hip, or shoulder, as to render the stump unserviceable, the pensioner is entitled to the same compensation as if no stump were left. This rule will apply to a considerable number of pensioners who have been receiving pay at a lower rate.

A Card From John McCann.

To whom it may concern.

Whereas, my name has been mentioned in our papers and on the streets of our city, in connection with a detective agency. I desire to inform the public that I know of no such agency and do not believe any such agency exists, only in the fertile imagination of some cowardly enemy who has sought this method of doing me injury. I will further state that I am honestly and faithfully attending to my humble office and seek no notoriety in connection with such agency. JOHN MCCANN,

Constable.

Joseph is a brother of Lucien A. White, arrested in St. Louis on the same charge. The former is known to have received a package containing $150,000 Brazilian counterfeits through the postoffice. He did not say what his plans were. The case was put in detectives' hands.

A Hoosier Postoffice Robbed.

By Telegraph to THE SENTINEL.

TERRE HAUTE, Aug. 27.—A *Gazette* special from Clinton reports the blowing open of the safe in the postoffice at Clinton, Ind., and a robbery of $400 in stamps and money. No clue.

The Cyclone's Work.

AUGUSTA, Ga., Aug. 27.—Tuesday's storm in Charleston was a cyclone, in the proper sense of the term. The wind blew twenty-five miles an hour, increasing to thirty-five, forty and fifty, finally running up to seventy-five or eighty miles an hour. The northern edge of the cyclone touched Charleston, and completed its passage in forty minutes. But a single shed is standing on the wharf; everything is in ruins at the wharves. Hundreds of thousands of dollars were expended on wharves this season in putting them in order. The south battery was a scene of great confusion and damage to shipping. The streets were flooded with water, and crafts of all descriptions were washed ashore and floating in the streets at high tide. Fishermen's boats were destroyed, and wharves piled high with incongruous wrecks. The spire of the Citadel Square Baptist Church, one of the tallest in the city, was blown across the four-story dwelling of Thomas C. Dolterer, cutting away the piazza and front wall, and leaving the interior exposed to the storm. It will take $80,000 to replace the steeple. About a mile of railroad track was blown up, and freight depots badly damaged. Two sloops were blown out of the water, and across tracks, weighing thirty, and fifty tons each. The South Carolina railway wharves, and immense storehouses, were unroofed and heavily damaged. One building was thrown on its side and floated 100 yards into a marsh. The *News and Courier*, of Charleston, makes a rough estimate of losses: Wharf property, $250,000; private property, $300,000; cotton presses, $8,000; churches, $30,000; city property, $35,000; railroads, $50,000; Ashley river bridge, $8,000; shipping, $150,000; lumber mills, $20,000; miscellaneous, $100,000; total, $1,123,000. The track of the South Carolina railroad, from the intersection of the Northeastern railroad to the South Carolina railroad wharves, floated all about, and was deposited in zigzag proportions on whatever foundations were exposed by the receding waters. The loss to the railroad is estimated at $30,000 at this point; other railroads several thousands each. At Sullivan's Island, many houses were damaged. The New Brighton Hotel had the windows blown in and crockery broken, but withstood the storm bravely. The Casino was lifted entirely from its foundation and dashed to the ground.

CHARLESTON, Aug. 27.—It is thought the damage to the rice crop by Tuesday's cyclone is not serious. The railroads are running again, although their loss is considerable.

KEILY RETURNS.

He Does Not Understand Why He Was Rejected.

By Telegraph to THE SENTINEL.

NEW YORK, Aug. 27.—Anthony M. Keily, who was appointed minister to Italy, but afterwards transferred to Vienna and rejected by the Austrian government, arrived here yesterday. In an interview he said: "Any government, according to national law, from fact of its sovereignty, has a perfect right to receive or reject whoever may be appointed minister to it. International courtesy, even, does not require an explanation, but when any government assigns reasons for rejecting, it must be judged by the strength of those reasons. It is almost impossible for any American to understand how a man can be rejected as minister to any civilized government, because his wife is a Jewess as my wife is. That is the only objection made that I know of. Such a reason affronts the United States and insults the nineteenth century. What I shall do now I do not not know. I was city attorney of Richmond before I was appointed. I resigned, and sold my library and my house. Now I am broken up, root and branch."

**Father, Mother, and Three Sisters Dead.**

Mr. David Claypool, formerly Sergeant-at-Arms of the New Jersey Senate, and now Notary Public at Cedarville, Cumberland Co., N. J., makes the following startling statement: "My father, mother, and three sisters all died with consumption, and my lungs were so weak I raised blood. Nobody thought I could live. My work (shipsmithing) was very straining on me with my weak constitution, and I was rapidly going to the grave. While in this condition I commenced using Mishler's Herb Bitters, and it saved my life. Because it was so difficult to get it in this little place, and I had improved so much, I stopped taking it for a time, and the result is that I have commenced going rapidly down hill again. Somehow, Mishler's Herb Bitters gives appetite and strengthens and builds me up as nothing else does, and I must have a dozen bottles at once. Use this communication as you please, and if any one wants to be convinced of its truth, let them write me and I will make affidavit to it, for I owe my life to Mishler's Herb Bitters."

The secret of the almost invariable relief and cure of consumption, dysentery, diarrhœa, dyspepsia, indigestion, kidney and liver complaints, when Mishler's Herb Bitters is used, is that it contains simple, harmless, and yet powerful ingredients, that act on the blood, kidneys, and liver, and through them strengthens and invigorates the whole system. Purely vegetable in its composition; prepared by a regular physician; a standard medicinal preparation; endorsed by physicians and druggists. These are four strong points in favor of Mishler's Herb Bitters. Mishler's Herb Bitters is sold by all druggists. Price $1.00 per large bottle. 6 bottles for $5.00.

Ask your druggist for MISHLER'S HERB BITTERS. If he does not keep it, do not take anything else, but send a postal card to MISHLER HERB BITTERS CO., 358 Commerce Street, Philadelphia.

Another prominent doctor of Providence says that "I am frequently urged to use other preparations as substitutes for Hunt's [Kidney and Liver] REMEDY. I find on trying them that they are worthless in comparison to it."

OFFICIAL PAPER COUNTY AND CITY.

WEDNESDAY, AUG. 26, 1885.

It is right and proper for those who stood responsible for the debts and liabilities of the late reunion to receive the entire profits, if they so desire. If they had lost money by their enterprise, very few persons would have stepped up to the captain's office and helped to pay the bills.

A PROMINENT criminal lawyer of California has made the following announcement in a San Francisco newspaper: "Hereafter I will defend none of the criminal class. I prefer to aid in sending that class to State prison, where they more properly belong, rather than keeping them free to prey upon the community, as I have heretofore done, to my sorrow."

PROF. SWING, in the *Current*: "A woman in a Lake Geneva car last week gave her infant a severe slapping to make it quit crying. She perhaps did this to show the passengers what a profound respect she had for law, order, discipline, and submission. The infant was about three months of age. In a few years it will say, 'There is no place like home,' and will hasten to leave it for that reason."

SCIENTISTS and theologians are studying the case of a young lady in Central New York who took the gold medal at her graduation for reading the best essay, a production which was afterward found to have been stolen bodily from a magazine. She returned the medal as soon as her dishonesty was exposed, and expressed great penitence for her act. The point which the wise men are now debating is whether she would have repented if she had not been found out, and, if so, when? The discussion promises to lap over into the fall season to some extent.

AMONG the ladies at Long Branch this summer, one of the wealthiest, most "diamoned," and most gorgeously apparelled is the wife of a New York barber, who has made his fortune in stock speculation. Her husband still scrapes chins, notwithstanding the fact that his wife has "society" aspirations. Most of his customers are brokers and railroad men. He picks up valuable "points" from them, and for that reason insists on remaining in business. Another woman who wears splendid toilets and jewels is the wife of a Brooklyn baker. Her husband, starting in life as a journeyman kneader of dough, hit upon a kind of bread that pleased New York's palate, and now he is a millionaire, lives in great style, and maintains one of the handsomest turnouts on the mast.

ON the ground that the work was "unwomanly" and degrading, the Pennsylvania Legislature lately passed a law prohibiting women from working in the coke ovens and mines. Instead of receiving the thanks of the ladies interested in the advancement of their sex, as they perhaps expected, the legislators are being hauled over the coals for meddling with the rights and privileges of women. Investigation into the matter shows that of the few women hitherto engaged in these laborious occupations, nearly all were widows who must do something for the support of their families, or were the wives of men who were too ill or feeble to do the work themselves. The champions of the class thus discriminated against do not recommend mining and coke shoveling as suitable or desirable employments for women, but contend that they should have the right to earn an honest living in this way when no other alternative is presented to them but idleness or beggary. If they are to be debarred from earning their bread by the only means open to them simply because the work in question is regarded as out of their proper field, then, insist their champions, the men who are trespassing on feminine prerogatives by selling tapes and corsets, and by cooking and dressmaking, should be prohibited from so doing. As it is, no man is prevented from earning his living at anything for which he is capable and can secure, and no good reason presents itself to the believers in equal rights why women should be denied the same privilege.

THE story of how Patti's divorce was formally secured, at last, is thus told in a London newspaper: Mme. Patti came before the Mayor of the Eighth Arrondissement, Paris, M. Koechlin-Schwartz, who declared her marriage *dissous par le divorce*. Mme. Patti's witnesses were Pierre Vernon and Francis Maynard; the witnesses of the Marquis de Caux were Gen. Count d'Andlau, Senateur, and Count Duries de Verninac. After the ceremony, which took barely twenty minutes, a collection for the poor was made, and it so happened that the divorced Marquis had mislaid or forgotten his purse when, with great grace, Mme. Adelina stepped in and offered her "last piece de vingt francs." Subsequently a dinner at Brebant's was served for the witnesses, the lawyer, the lady-heroine of the *fete*, M. Nicolini and his children—one a son of twenty-four, who is military and already *marechal des logis*. By the law of France prescribing the delay of ten months for any divorced lady who wishes to remarry, Mme. Patti will at any rate have to wait until May 16, 1886.

*Why Is It*

That the sale of Hood's Sarsaparilla continues at such a rapidly increasing rate? It is—

1st. Because of the positive curative value of Hood's Sarsaparilla itself.

2d. Because of the conclusive evidence of remarkable cures effected by it, unsurpassed and seldom equalled by any other medicine. Send to C. I. Hood & Co., Lowell, Mass., for book containing many statements of cures.

It is a curious fact that since dark ages Lord Salisbury is the first bearded Prime minister.

The Mississippi river is called the Father of Waters because it is the grandest and mightiest of all American waterways. The greatest of all American remedies—of all the world in fact—is Mishler's Herb Bitters. It can safely challenge comparison with any known preparation, and can show more real, bona fide cures of kidney disease, liver complaint, troubles of the stomach and bowels, dyspepsia and kindred complaints than any other remedy now before the public.

The children of Queen Victoria now take $600,000 a year from the purse of the British people.

Salvation Oil, the greatest cure on earth for pain, has no equal. Persons suffering from rheumatism, neuralgia or from cuts, bruises, sprains, etc., should not be without it. Cures are effected in an incredibly short space of time. Price only 22 cents a bottle. For sale by all druggists.

*HAY FEVER.*

I have suffered greatly from periodical returns of Hay Fever. At the suggestion of Covert & Cheever, druggists, I obtained Ely's Cream Balm and used it during a severe attack. I can cheerfully testify as to the immediate and continued relief obtained by its use. I heartily recommend it to those suffering from this or kindred complaints.—(REV.) H. A. SMITH, Clinton, Wis.

For all Diseases of the

**Liver, Kidneys, Stomach and Spleen.**

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys, and corrects the action of the Liver, and is, therefore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance, will promote digestion, dissipate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

No loss of time, no interruption or stoppage of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, will expel the poison and protect them from attack.

**A PHYSICIAN'S OPINION.**

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would take Simmons Liver Regulator, promptly and efficiently move the Liver to action, and at the same time and instead of weakening the digestive and assimilative powers of the system. # Indigestion Cured!

I suffered for more than five years with indigestion, scarcely able to retain the simplest food on my stomach. The burning sensation was almost intolerable, and my whole system was deranged. I was wakeful and could not sleep, and consequently nervous and dull all the time. I declined in flesh, and suffered all the usual depression attendant upon this terrible disease. In a word, I was miserable. At last, failing to find relief in anything else, I commenced to use Swift's Specific. I began to improve at once. The medicine toned up the stomach, strengthened the digestive organs, and soon all that burning ceased, and I could retain food without the slightest difficulty. Now my health is good, and can eat anything in the shape of food, and digest it without the slightest difficulty. I most cheerfully bear this testimony, because there are hundreds suffering as I was, and I am sure they can be as readily healed. Take the prescribed dose after eating, instead of before.

**Free From Malaria.**

In the fall of 1884 I was taken with a case of malarial fever which penetrated me both body and mind. I was drugged after the old fashion with mercury and other mineral mixtures, but with no good results. My health was shattered and my energy gone. My legs and feet would swell, and I had what everybody thought was dropsy. These symptoms alarmed me, and I was ready to grasp at any remedy suggested. A friend advised me to try Swift's Specific. I procured three bottles and commenced its use. The swelling soon subsided. I have taken the three bottles, which have made a perfect cure, and I feel like a new man to-day. There never was a more meritorious medicine offered to suffering humanity. It has wrought wonders for me. WILLIS JONES.

*Street Beggary.*

To be a successful street beggar a man must look forlorn and debilitated, and unable to work. It would not do for a street beggar to take Brown's Iron Bitters, for that would tone him up and give him a wholesome ambition to labor, and he would have to go out of the beggary business and do something better. Mr. Josiah Morse, Henniken, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

# Fort Wayne Paint and Color Works.

No. 12 West Columbia Street Fort Wayne, Indiana.

## To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinder of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 33½ per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1856, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

A vote of thanks was given to Mrs. Gause for her work done for the union in the years past.

The W. C. T. U., of Fort Wayne, are very thankful to the Richmond W. C. T. U. for their liberal donation of literature to be distributed on the encampment grounds.

A Gospel temperance meeting was held on the encampment grounds last Sunday afternoon. A large audience listened to the singing and speaking. Miss Stella Lawrence rendered a solo in her usual pleasing manner.

Tuesday afternoon the committe of the Blue Ribbon club and W. C. T. U. held a meeting at temperance headquarters to report the work done at the reunion. Everything was satisfactory, the receipts being more than were at first anticipated.

### He Plugged the Bull's Eye.

Says the Columbia City *Post*: "Hon. P. S. O'Rourke, of Fort Wayne, has been the means of distributing a great many copies of *The Million*, an intelligent journal published in DesMoines, in the Twelfth congressional district. Some months ago the same distinguished gentleman distributed, with great liberality, his pamphlet entitled 'Plain Talk,' over the same territory with a double aim. His primary aim was to win public public favor and a congressional nomination by an exhibition of his natural and acquired abilities as an expounder of the true tariff doctrine our nation should adopt. His secondary aim was to provide the people with a wholesome supply of common sense brain food on a very important and vital question, of interest to every consumer in the land. If the gentleman's primary aim lands wide of the mark, and it probably may, we can assure him however, that his secondary aim has already plugged the bull's eye, and there is consolation in that."

*Out of Sorts.*

Many persons complain of not feeling well, and, though not absolutely sick or in pain, are perpetually in a state of discomfort caused by the digestive organs not properly performing their work. To correct the disordered condition of the stomach and restore health, take a half-tablespoonful of Simmons Liver Regulator after each meal. Try this purely vegetable cathartic, tonic and alterative and it will convince you that no one can take it and remain long unwell.

### Fort Wayne's Loss is Toledo's Gain.

A gentleman of this city, who lately spent several days at Toledo had the pleasure to meet Mr. Eugene Fountaine, the patentee of the Fountain engine, and who is also the inventor of a pin machine. It will be remembered that Mr. Fountaine desired several capitalists to form a stock company and locate a pin manufactory in this city, but the plans were too slow to materialize. Toledo parties hearing of his scheme made him large offers to locate the works there, which he accepted, and the factory has been in active operation for some time past, and is one of the leading industries of that city. Another invention just brought out by Mr. Fountaine, is the continuous rail for railroad crossings, which will also be manufactured in Toledo. Fort Wayne should have had both these enterprises.

## GROSS IS GOBBLED.

The Slick Young Ribbon Salesman Arrested at Van Wert and Sure to Go Up.

Sheriff DeGroff Nelson received a letter from Van Wert yesterday. It conveyed news of much interest here as it pointedly said: "We have S. Elwood Gross, the absconding dry goods clerk and forger from Fort Wayne. We have a sure thing on him and can send him up for a good term. Shall we do it or turn him over to you?"

Mr. Nelson has no desire to saddle the cost of convicting young Gross on the people of this county and replied: "Send him to the penitentiary from your town. If you can not, wire me and I will get requisition papers. We, too, have a sure thing on him."

Young Gross came to a rather severe end, and as he committed numerous forgeries in Ohio, and did much crooked work by falsely representing himself as an agent of the Manatuck silk house, of Chicago, it is safe to predict for him a ten year term in the Ohio penitentiary.

Here the young man was petted in society and the most devout participant in prayer meetings. He engaged himself to a half dozen young ladies and successfully avoided collisions in his promiscuous love affairs. His address will be at the Van Wert county jail for some time and flowers and other tender tokens of regard will reach him under the direction named. Sheriff Nelson is entitled to much credit for the scoundrel's capture, as it was one of his postal cards that led to the clever job.

## IT PARALYZED HIM.

Milton Sawyer, the Colored Barber, Almost Killed by Whisky.

A rumor circulated this morning that Milton Sawyer, the colored artist who keeps a barber shop on Calhoun street, had dosed himself with poison. THE SENTINEL representative dropped in and introduced himself as a physician. Milton could not speak, neither could he move his left arm. In reply to the question, "What ails you," the coon pointed to his stomach, then to his mouth and finally towards heaven. He is evidently figuring on a trip, but whether his hopes will be realized remains in doubt. It is pretty certain he took no poison, but instead attempted to cover all the whiskey in the city, with paralytic results. Dr. Gard gave the man a drug and in a week or so he will use the razor again. Many colored people sat around the sufferer's bed and the aspect was gloomy. He is the sickest man in the city.

It must be admitted that the Wabash strike has not panned out so far to any remarkable extent. Whether this is because the strikers that are to be are waiting till they are good and ready, or whether it is because the railway officials are managing to get along without coming in contact with any of the rules which the Knights of Labor have laid down for the government of members, is not exactly apparent at this distance. So far, however, but few men have quit work, and of these few a portion at least have returned to the shops.

"That tired feeling" from which you suffer so much, particularly in the morning, is entirely thrown off by Hood's Sarsaparilla.

## THEY KICK.

The Mail Service a Little Lame on the Railroads North.

Citizens along the line of the Grand Rapids road are complaining of the careless mail transfer system at the south depot here. "And besides," says the Albion *Democrat*, "but one mail a day can arrive at this place, unless direct between Chicago or New York. The postal clerks in Chicago, and some of the other large cities, have set up a kicking on account of the large amount of mail sent to those places to be redistributed for other points. Mails formerly, in order to reach Brimfield or other points on the Lake Shore road, were sent to Chicago and returned over the other road, but now they have to go to Avilla, then on the Grand Rapids and Indiana to Kendallville, and from there over the Lake Shore, and as the Grand Rapids and Indiana has never known to make close connections with any other road, considerable delay is occasioned."

## SEEKING FASHIONS.

Joe Clark, the Leading Merchant Tailor, en Route to New York.

Joseph M. Clark, the merchant tailor, whose parlors, on East Berry street, are familiar to the people of Fort Wayne, stepped on the limited express last night and whirled away toward the east. Mr. Clark's mission is to select and buy a stock of cloth for fall and winter suitings. Another mission is to procure the styles and view himself the fashions as they meet the eye. Mr. Clark will remain in New York for a week, devoting his time entirely to business. He tells THE SENTINEL he will return with the finest and rarest stock of clothes, for every sort of suitings, ever spread before the people of Fort Wayne. Joe is a very tasty fellow, a good judge and a master of the art of tailoring. Gentlemen are asked to defer purchases until Mr. Clark returns, and THE SENTINEL will keep them duly posted on the movements of Fort Wayne's merchant tailor prince.

### The Circus as It Was.

VanAmburg, Reiche & Co.'s circus gave creditable exhibitions yesterday and last night, not, however, to paying houses. Some features of the show were fine, particularly the tumbling and work of the Japanese. A young miss of sixteen years did a clever bareback ride, while her father and mother did the trapeze act. The trained dogs and horses were amusing. The best tumblers in the party are suffering from broken limbs. One of their number recently broke his neck in an act. It was with this show the lady with the iron jaw fell while holding a cannon by her teeth.
